Hey, Do You Remember When...

Do You Remember???

Kenlee Finn

• There are not five specific memories that I can pick out that bring them apart from others as every memory I have made throughout school is very important to me.

David Flaugher

• I remember the first few years of middle school we came with a game to play at recess called zombie tag.

Jersey Fulton

• My fondest high school memory would have to be the senior sunrise at the beginning of senior year. A group of seniors went up to Rankin Hill and watched the sunrise all together.

Hey, Do You Remember When...

Do You Remember???

<u>Drew Baughey</u>

- Preston brought Carson and I cheese coneys from Skyline and we got to eat in the principal's office (Senior Year)
- The bus ride home from our track meet in Williamsburg (Junior Year)
- Steven Carrington and David were at the table and Steven said something and I spit Pepsi all over the table from laughing. (Sophomore Year)

<u>Kyla Finn</u>

One memory that is funny to look back at is from elementary school, me and my fellow classmates were having fun running around the playground playing tag. We all ran and ran around the playground and eventually it was my turn to be the tagger. I was doing my usual tagging everyone until it came to one of my friends Clay Phillips. Me and Mr. Phillips were just running and running until it stopped all of a sudden. I called his name as I was running after him to tag and right as he turned back around to run full speed into a pole. He dropped to the ground and burst into tears and it all started to look like a movie, while me and my fellow classmates started to surround him, not knowing whether to laugh or be concerned. After the fact he was hysterical about the situation but not so much about the goose egg on his head.

- In elementary school we used to ride on the tire swing the entire recess even when it made us sick.
- In elementary school Mr. Fishsticks had to kiss a goat at that one assembly.
- We got to duct tape our favorite teachers to chairs in middle school.
- We went ice skating in middle school and everyone took all of the complimentary chapstick.
- Our freshman year we got to take mask breaks from class during covid and go for walks.

Lacy Jarvis

- My first day of kindergarten I was in the bathroom and the fire alarm went off, my heart stopped and little me freaked out. I was terrified of the bathroom the rest of the year.
- Our 8th grade year was cut short due to covid so we finished middle school on our computers. In middle school every recess we played 4 squares outside on the black top.
- In middle school we had a lockdown after school and was stuck in a classroom for so long it felt never ending.
- In high school we split the middle school into the high school and elementary so I got to witness the chaos with having 7th graders in a high school.

-Blue Jay Beat

Hey, Do You Remember When...

Do You Remember???

Lexie Pirtle

- I have a million memories with countless people, some moved away or I no longer talk to them. So many laughs and smiles shared between classmates.
- My favorite memories are probably mostly from elementary school. Simple things like inviting someone new to play tag with us and becoming friends. Or when I first moved into Ripley a couple kids taught me how to play basketball. Bus rides when I was little were too good and the lunches back then were like 100x better.
- I suppose there's a few things to miss about this school. I loved class library visits, giggling in class when you're supposed to be paying attention, walking into the bathroom and helping a random girl I had barely ever seen with her hair, or sitting in the back of a class telling stories when you have a paper due in twelve minutes that you haven't even started.
- I'll cherish the moments that most people have never seen or won't remember before long. And I'll always have a soft spot for the people I've been lucky enough to grow up with here.

-Blue Jay Beat

Hey, Do You Remember When...

• Playing at the park in Elementary

Sara Schwierling

- Do not forget
- My favorite memory from middle school was when there was a spider hanging from the basketball rim and I tried to kick it down but missed and fell in front of all my friends. I find this memory funny because of how confident I was in myself.

Madison Williams

- Moving here in middle school and making new friends
- Making a friend at the end of middle school and still having her to this day.
- When my friend got her license she would always take me home or we would go to the park or work together after school.

-Blue Jay Beat

- Remember in middle school there was a crazy guy speeding across the states and we had to go into a lockdown for a few hours after school let out. I still remember running as fast as I could from the bus into the high school.
- Remember in middle school during practice we would always throw wet toilet paper onto the walls to see if they would stick, we would clean them up I promise.
- Remember our last basketball season, one practice Jersey tripped me and I slid across the floor and my hand was burnt so bad and Raquael would have to constantly tell me to shut up about my hand.

Nevaeh Vaughn

- Going to the Daddy Daughter dance with Nick in elementary school.
- Going to almost all of the basketball games with Lacy and Kilyn in middle school.
- The fun times on the bus rides to the CTC.
- Piercing our ears in the bathroom with Maddy and Rae at the CTC.

Kilyn Baker

- In elementary school my first grade teacher would read books to us every morning and it was always a Magic Treehouse book, she had a whole cabinet full of them.
- In elementary school one of my first school field trips was to the Cincinnati Children's Museum, and it was the coolest thing at the time and when we were there they have a theater that's all around the room even the ceiling and the movie we watched was about Monarch Butterflies and ever since then I've loved butterflies, they are my favorite.
- In middle school my last year at Felicity-Franklin we would have field days outside at the end of the year and we'd do all kinds of fun games and activities and one of them was to see which team could fill up a bucket faster with water by closing our eyes and passing a container full of water backwards while also going over our heads and underneath between our legs and I remember my team got soaking wet but still won even though half the water was on us and not in the bucket.
- In high school my freshman and sophomore year me and a group of my friends would walk after school to McDonalds and get food and then we'd just walk around town hanging out, talking, and having fun.
- In high school my sophomore year my best friend was invited by one of our senior friends to prom because she didn't have a date, but my best friend didn't want to go without me so we asked a lot of juniors and seniors if someone would take me as their guest so I could go. When we finally found someone it was the last day to buy tickets and we had to have another one of our friends pay \$50 for me to be able to get a ticket to go.

Last Will & Testament

I Do Hereby....

John Everhart III. I do not have any positions in school and I hope to not have a school related position to this school but in the people I meet that is what I wish I could keep up my sleeve for emergencies.

I, Kenlee Finn, being of sound mind and body, do hereby bequeath my parking spot, officer positions, and my locker to Gabby Himes as I believe that she will do well and perform to the best of her ability in everything she may participate in and is very deserving of anything she may need or want.

I, David Flaugher now being no more than ash and dust, leave my position as Commanding Officer to Kylan Goins and I also leave my locker to my younger brother Jason who shall continue my legacy for years to come.

I, Marlee Flowers, being sound of mind and body, do hereby bequeath my parking spot #98 to Callie Fultz because I want her to always remember me when I'm gone.

I Do Hereby....

I, Jersey Fulton, declare my great sense of humor to my sister, Journey Fulton, and to everyone else that needs it. I would also like to pass on my legacy of being late every single day to my sister. As well as my jersey number 11, wear it proudly and make history!"

I, Grace Gibbs, being of sound mind and body, do hereby bequeath my locker that I never used to whoever wants it.

I, Morgan Hesser, being of sound mind and body, do hereby bequeath my locker to my sister Melody Hesser, since she's my sister she deserves to have the locker that belonged to her older sister.

In elementary school, I made it my job to be friends with everyone, and now, although we may not all be close, I cherish the memories we've shared together. I pray everyone has a good life and hope you all follow your dreams. P.S. whoever has the jersey number 4 bestowed upon them in the future, be prepared to keep the legacy going... Much Love, Ellaina

Ms. Skinner

" The future belongs to those who believe in the beauty of their dreams." - Eleanor Roosevelt I've watched you all grow throughout the years, and words can't express how proud I am of every single one of you!!! What feels like the end is often just the beginning. Go out into the world. Find the magic. DO GREAT THINGS!

"Always remember that you are braver than you believe, stronger than you seem, smarter than you think, and loved more than you'll ever know. We wish you the best of luck and we wish you well

Words of the Wisdom

Always keep a smile on your face and only kind words from your mouth. These two things can will never let you down.

Stay true to yourself. Be authentic and true to your values, beliefs, and passions. Your uniqueness is what makes you special.

Mrs. Gray

Putting on an evening gown or a tuxedo does not make you a grown-up. Vandalism is never a good choice, no matter how small it may seem. However, Integrity (doing the right thing when nobody's watching), responsibility, selflessness, consideration, and being kind is a good start to being a great, productive person. Always be grateful for the opportunities you may receive. Mrs. Rosenbaum

Words of Wisdom

"We never know which lives we influence, or when, or why." -Stephen King As we move through life, it's gratifying to know that one tiny interaction can change someone's life so emphatically. Thinking back over your school years, some teachers have made a major impact on your lives. Even though I have known some of you for a very short time, my life has been changed by those experiences. Your task is to go out and change other's lives the way yours and mine have been changed. These small changes are what truly make a difference. So, go out and change the world!
